

Subject Index to Volume 235 (January-June 2002)

A

- Abdominal distention, multiple endocrine neoplasia type 2, 648
- Abdominal surgery
adhesion formation, hyaluronic acid-carboxymethylcellulose membrane and, 193
emergent, advanced tests in, 681
- Abdominal wall, infection, extra-peritoneal reconstruction with omentum, 782
- Abscess, hepatic, in chronic granulomatous disease, 383
- Acetic acid injection, percutaneous, hepatocellular carcinoma, 466
- Achalasia
laparoscopic Heller myotomy, failures, 186
minimally invasive Heller myotomy for, 631
- Adenocarcinoma, esophageal, after antireflux surgery in Barrett's esophagus, 178
- Adenoma
parathyroid, limited resection of single/double adenoma in tertiary hyperparathyroidism, 673
rectal, endoscopic transanal resection, 355
- Adhesion molecules, ICAM-1 expression in Crohn's serosal fibroblasts, 507
- Adhesions
intraoperative, hyaluronic acid-carboxymethylcellulose membrane and, 193
small bowel obstruction after ileal pouch-anal anastomosis, 200
- Adrenalectomy, laparoscopic, for familial pheochromocytoma, 713
- Advanced tests, in emergent abdominal operations, 681
- Adverse events, postoperative death rate at an academic medical center, 690
- Age/aging
colon cancer survival, 458
death rate after abdominal aortic aneurysmectomy, 579
gallstones, 842
multivisceral resection for locally advanced colorectal cancer, 217
- Airway emergencies, in trauma patients with halo fixation, 280
- Ampulla of Vater, malignancy, staging laparoscopy, 1
- Anastomotic leak
laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
penetrating colon injuries, 775
- Aneurysm, abdominal aorta
death rate after aneurysmectomy, hospital volume and, 579
endovascular repair, 833
plasma platelet activating factor acetylhydrolase gene mutation and, 297
- Angiogenesis, in gastric cancer, 512
- Animal studies
antiinflammatory effects of inosine in murine model of acute lung injury, 568
attenuating neutrophil-mediated lung injury (rat), 285 caspase-1/interleukin-1 β -converting enzyme inhibitor in acute pancreatitis (rat), 68
connective tissue growth factor in acute necrotizing pancreatitis (rat), 60
female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
glucose homeostasis in sulfonylurea receptor/somatostatin subtype receptor 5 double knockout mice, 767
interferon- γ modulation of tamoxifen/Fas-induced apoptosis of human cholangiocarcinoma (mice), 863
ischemic preconditioning vs. intermittent inflow occlusion in murine liver, 400
laparoscopic fluorescence diagnosis of peritoneal carcinosis (rat), 252
postoperative luminolymphatic pathway and paralytic ileus (rat), 31
repair of defects in alimentary tract wall with expanded polytetrafluoroethylene patch (dog), 708
- Antireflux surgery
in Barrett's esophagus, dysplasia and adenocarcinoma after, 178
division of short gastric vessels at laparoscopic Nissen fundoplication, 165
- Antiviral therapy, liver transplantation for hepatitis B, 611
- Aorta, thoracic, traumatic rupture, immediate or delayed repair, 796
- Aortic aneurysm, abdominal
death rate after aneurysmectomy, hospital volume and, 579
endovascular repair, 833
plasma platelet activating factor acetylhydrolase gene mutation and, 297
- Aortic surgery, autologous vs. allogeneic transfusion in, 145
- Apoptosis, pulmonary neutrophils, lung injury and (rat), 285
- Appendicitis, suspected, technetium-99m anti-CD 15 monoclonal antibody imaging, 232
- Arteriography, follow-up, in blunt cerebrovascular injury, 699
- Aspiration biopsy, fine-needle aspiration of thyroid nodules, 656
- Aspirin, preoperative, bleeding after coronary artery bypass grafting, 820
- Atypia, follicular thyroid neoplasms, 656

B

- Bariatric surgery, laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
- Barrett's esophagus
antireflux surgery in, dysplasia and adenocarcinoma after, 178
pathogenesis, 338
- Bile duct
common, imaging methods in laparoscopic cholecystectomy era, 41
extrahepatic, malignancy, staging laparoscopy, 1
small bile duct reconstruction of caudate lobe, in living-related liver transplantation, 174
- Bile duct injury, laparoscopic cholecystectomy, quality of life after surgical repair, 888
- Biliary tract malignancy
extrahepatic, staging laparoscopy, 392

- Aspiration biopsy, fine-needle aspiration of thyroid nodules, 656
- Aspirin, preoperative, bleeding after coronary artery bypass grafting, 820
- Atypia, follicular thyroid neoplasms, 656

B

- Bariatric surgery, laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
- Barrett's esophagus
antireflux surgery in, dysplasia and adenocarcinoma after, 178
pathogenesis, 338
- Bile duct
common, imaging methods in laparoscopic cholecystectomy era, 41
extrahepatic, malignancy, staging laparoscopy, 1
small bile duct reconstruction of caudate lobe, in living-related liver transplantation, 174
- Bile duct injury, laparoscopic cholecystectomy, quality of life after surgical repair, 888
- Biliary tract malignancy
extrahepatic, staging laparoscopy, 392

- staging laparoscopy, 1
 - Biomarkers, cyclooxygenase 2, in non-small cell lung cancer, 440
 - Biopsy, stereotactic core biopsy of mammographic abnormalities (*letter*), 605
 - Bleeding time, aspirin and bleeding after coronary artery bypass grafting, 820
 - Blood loss, multivisceral resection for locally advanced colorectal cancer, 217
 - Body fat, energy expenditure and caloric balance after burn, 152
 - Book reviews, 444, 603
 - Breast, stereotactic core biopsy of mammographic abnormalities (*letter*), 605
 - Breast cancer
 - node-negative, prognostic factors, 10
 - nonpalpable, mammographic appearance and pathologic characteristics, 246
 - recurrence
 - after skin-sparing mastectomy and immediate reconstruction, 814
 - eukaryotic initiation factor 4E protein elevation, 732
 - small, adjuvant chemotherapy, 859
 - Burn injury, energy expenditure and caloric balance after, 152
 - Burn wound
 - cultured composite keratinocyte grafts, interleukin-1 α and IL-6 enhanced antibacterial properties, 113
 - cultured skin substitutes and requirement for donor skin harvesting, 269
- C**
- Carcinoembryonic antigen, in peritoneal washes from gastric cancer patients, 499
 - Cardiovascular surgery
 - coronary artery bypass grafting, aspirin and postoperative bleeding, 820
 - ventricular reconstruction, left ventricular function and mitral insufficiency, 828
 - Caspase-1/interleukin-1 β -converting enzyme inhibitor, in acute pancreatitis (rat), 68
 - Cathepsin D, survival in node-negative breast cancer, 10
 - Celiotomy, emergent, advanced tests in, 681
 - Cell salvage, intraoperative, in aortic surgery, 145
 - Cerebrovascular injury, blunt, follow-up arteriography and outcome, 699
 - Cervical injury, halo fixation, airway emergencies in, 280
 - Chemoembolization, transarterial, hepatocellular carcinoma, 466 preoperative, 533
 - Chemotaxis, chemoattractant receptor expression and neutrophil chemotaxis, 550
 - Chemotherapy
 - adjuvant, small breast cancers, 859
 - perioperative, hepatocellular carcinoma, 533
 - Cholangiocarcinoma
 - hilar, staging laparoscopy, 392
 - interferon- γ modulation of tamoxifen/Fas-induced apoptosis of human cholangiocarcinoma (mice), 863
 - Cholangiography, intraoperative, in laparoscopic cholecystectomy era, 41
 - Cholangiopancreatography, endoscopic retrograde, in laparoscopic cholecystectomy era, 41
 - Cholecystectomy, laparoscopic
 - bile duct injury, quality of life after surgical repair, 888

- changing methods of common bile duct imaging, 41
- legal consequence (*letter*), 606
- transcontinental robot-assisted remote telesurgery, 487
- Chronic granulomatous disease, hepatic abscess in, 383
- Cirrhosis, intraoperative sonography vs. helical computed tomography, 528
- Clinical pathway, penetrating colon injuries, 775
- Clostridium difficile* colitis, 363
- Colitis, *Clostridium difficile*, 363
- Colon, penetrating injuries, clinical pathway for, 775
- Colon cancer
 - effect of the surgeon and the pathologist on patient survival after resection (*Editorial*), 464
 - stage B, extent of lymphadenectomy and survival, 458
- Color Doppler vascularity index, in gastric cancer, 512
- Colorectal cancer
 - excision, circulating tumor cell clearance, 226
 - hepatic metastases. *See* Metastatic disease
 - multivisceral resections, 217
 - recurrent, cost-effective management (*letter*), 309
- Colostomy, penetrating colon injuries, 775
- Computed tomography (CT scan)
 - Clostridium difficile* colitis, 363
 - helical, hepatocellular carcinoma in cirrhosis, 528
 - in persistent/recurrent hyperparathyroidism, 99
- Connective tissue growth factor, in acute necrotizing pancreatitis, 60
- Constipation, multiple endocrine neoplasia type 2, 648
- Coronary artery bypass grafting, aspirin and postoperative bleeding, 820
- Creutzfeldt-Jakob disease, transmission (*letter*), 311
- Crohn's disease, ICAM-1 expression in serosal fibroblasts, 507
- Cryotherapy, hepatocellular carcinoma, 466
- Cyclooxygenase 2, in non-small cell lung cancer, 440
- Cytokeratin staining, micrometastases in pN0 lymph nodes in completely resected non-small cell lung cancer, 133
- Cytokines, interleukin-1 α and IL-6 enhanced antibacterial properties of cultured composite keratinocyte grafts, 113
- Cytology, fine-needle aspiration of thyroid nodules, 656

D

- Dendritic cells, induction of tumor antigen-specific immune responses via tumor RNA-transfected dendritic cells, 540
- Diverticulum, epiphrenic, esophageal motility disorders and outcome of surgical treatment, 346
- Dor procedure, left ventricular function and mitral insufficiency, 828
- Drainage, surgical
 - percutaneous, pancreatic pseudocysts, 751
 - portal venous vs. systemic venous drainage of pancreatic grafts (*letter*), 605
- Duodenum
 - full-thickness defect, repair with expanded polytetrafluoroethylene patch (dog), 708
 - malignancy, staging laparoscopy, 1
- Dysphagia, multiple endocrine neoplasia type 2, 648
- Dysplasia, after antireflux surgery in Barrett's esophagus, 178

E

- Editorial
 - effect of the surgeon and the pathologist on patient survival after resection of colon and rectal cancer, 464

- fundoplication and the short gastric vessels: divide and conquer, 171
- laparoscopic repair for perforated peptic ulcer, 320
- using resources wisely: determining the indication for staging laparoscopy, 8
- Endoscopic pneumatic dilation, esophageal achalasia, 186
- Endoventricular patch, ventricular reconstruction, left ventricular function and mitral insufficiency, 828
- Energy balance, during hepatic stress response, 408
- Energy expenditure, burn patient, 152
- Erratum, 602
- Esophagectomy, esophageal columnar metaplasia and, 338
- Esophagus
 - cervical, metaplastic columnar mucosa after esophagectomy, 338
 - motility abnormalities, in epiphrenic diverticulum, 346
- Ethanol injection, percutaneous, hepatocellular carcinoma, 466
- Ethical issues, surgical "placebo" controls, 303
- Eukaryotic initiation factor 4E protein, breast cancer recurrence, 732

F

- Familial adenomatous polyposis, ileoanal pouch-related septic complications, 207
- Family history, gallstones, 842
- Fibrosis, pancreatic, delayed gastric emptying after pylorus-preserving pancreaticoduodenectomy with pancreaticogastrostomy, 240
- Fine-needle aspiration, thyroid nodules, 656
- Flatulence, multiple endocrine neoplasia type 2, 648
- Flow cytometry, aspirin and postoperative bleeding, 820
- Fluorescence, laparoscopic fluorescence diagnosis, peritoneal carcinoma (rat), 252 18-Fluorodeoxyglucose-positron emission tomography (FDG-PET), hepatic colorectal metastasis resection (*letter*), 308
- Frozen-section analysis, sentinel lymph node, in primary cutaneous melanoma, 92

G

- Galactose elimination capacity, preoperative, predictive value in liver resection, 77
- Gallbladder cancer, staging laparoscopy, 1, 392 Gallstones, genetics vs. environment, 842
- Gastric bypass, laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
- Gastric cancer
 - carcinoembryonic antigen mRNA in peritoneal washes, 499
 - hepatic metastases, liver resection, 86
 - survival, association of color Doppler vascularity index and microvessel density, 512
- Gastric emptying
 - delayed, after pylorus-preserving pancreaticoduodenectomy with pancreaticogastrostomy, 240
 - gastric phase 3 motility after pylorus-preserving pancreaticoduodenectomy, 417
- Gastric vessels, short, division of, in laparoscopic Nissen fundoplication, 165, 171
- Gastrin-releasing peptide, in neuroblastoma, 621
- Gastrin-releasing peptide receptor, in neuroblastoma, 621

- Gastrointestinal tract, repair of defects in alimentary tract wall with expanded polytetrafluoroethylene patch (dog), 708

Gender

- colon cancer survival, 458
- death rate after abdominal aortic aneurysmectomy, 579
- gallstones, 842

Genetics

- gallstones, 842
- plasma platelet activating factor acetylhydrolase gene mutation and abdominal aortic aneurysm risk, 297 prognostic relevance of *p16^{INK4a}* gene in resected ductal pancreatic cancer, 51

- Glucose homeostasis, in sulfonylurea receptor/somatostatin subtype receptor 5 double knockout mice, 767

H

- Halo fixation, cervical injury, airway emergencies in, 280
- Heller myotomy
 - laparoscopic, failures, 186
 - minimally invasive, 631
- Hemodilution, acute normovolemic hemodilution, for aortic surgery, 145
- Hemorrhage, female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
- Heparin, in blunt cerebrovascular injury, 699 Hepatectomy. *See* Liver resection
- Hepatitis B, liver transplantation for, 611
- Hepatitis B immune globulin, prophylaxis, liver transplantation for hepatitis B, 611
- Hepatocellular carcinoma
 - liver transplantation
 - 5 cm or larger tumor, 533 intraoperative sonography vs. helical computed tomography, 528
 - locoregional therapies, 466 preoperative biopsy (*letter*), 604
 - small
 - preoperative predictors of survival, 722
 - with preserved liver function, outcome after resection, 373
- Hernia
 - extra-peritoneal reconstruction with omentum, 782
 - inguinal
 - laparoscopic vs. open repair, 333
 - lipomas of cord and round ligament in, 586
 - occult, peritoneography in inguinodynia, 140
 - synthetic mesh repair, 322
- Herniorrhaphy, inguinal, persistent pain after (*letter*), 311
- Hirschsprung's disease, multiple endocrine neoplasia type 2, 648
- Hospital volume, abdominal aortic aneurysm repair death rates, 579
- Human macrophage metalloelastase, in pancreatic cancer, 519
- Hyaluronic acid-carboxymethylcellulose membrane, intraperitoneal adhesions, 193
- Hyperparathyroidism
 - after total parathyroidectomy with autotransplantation, 99 primary, conventional vs. minimally invasive parathyroidectomy, 665
 - tertiary, limited resection of single or double adenoma, 673

I

- ICAM-1, in Crohn's serosal fibroblasts, 507

Ileal pouch-anal anastomosis

- septic complications in ulcerative colitis and familial adenomatous polyposis, 207
- small bowel obstruction after, 200

Imaging studies

- advanced tests in emergent abdominal operations, 681
- changing methods of common bile duct imaging in laparoscopic cholecystectomy era, 41
- hepatocellular carcinoma in cirrhosis, intraoperative sonography vs. helical computed tomography, 528
- technetium-99m anti-CD 15 monoclonal antibody imaging in suspected appendicitis, 232

Immune response

- female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
- induction of tumor antigen-specific immune responses via tumor RNA-transfected dendritic cells, 540
- interleukin-1 α and IL-6 enhanced antibacterial properties of cultured composite keratinocyte grafts, 113

Immunohistochemistry

- gastrin-releasing peptide in neuroblastoma, 621
- micrometastases in pN0 lymph nodes in completely resected non-small cell lung cancer, 133

Immunotherapy, induction of tumor antigen-specific immune responses via tumor RNA-transfected dendritic cells, 540

Infant(s), liver failure secondary to short bowel syndrome, isolated liver transplantation for, 435

Inflammatory bowel disease, ICAM-1 expression in serosal fibroblasts, 507

Inguinodynia

- lipomas of cord and round ligament, 586
- peritoneography in, 140

Inosine, antiinflammatory effects in acute lung injury (mice), 568

Instrumentation, ultrasound scissors/blades in liver resection, 27

Insulin secretion, in sulfonylurea receptor/somatostatin subtype receptor 5 double knockout mice, 767

Interleukin(s)

- interleukin-1 α and IL-6 enhanced antibacterial properties of cultured composite keratinocyte grafts, 113
- interleukin-1 β -converting enzyme, in acute pancreatitis (rat), 68
- monocyte IL-12 production, preoperative, postoperative sepsis and, 560

Intestinal manipulation, postoperative lumenolymphatic pathway and paralytic ileus (rat), 31

Intestinal obstruction, small bowel, ileal pouch-anal anastomosis and, 200

Ischemia-reperfusion injury, hepatic, ischemic preconditioning vs. intermittent inflow occlusion (mice), 400

Ischemic cardiomyopathy, ventricular reconstruction and, 828

Ischemic preconditioning, protection against hepatic reperfusion injury (mice), 400

K

- Keratinocyte(s), cultured composite keratinocyte grafts, interleukin-1 α and IL-6 enhanced antibacterial properties, 113
- Ki-67, survival in node-negative breast cancer, 10

L

Lamivudine, prophylaxis, liver transplantation for hepatitis B, 611

Laparoscopy

- adrenalectomy for familial pheochromocytoma, 713
- cholecystectomy
 - bile duct injury, quality of life after surgical repair, 888
 - legal consequence (*letter*), 606
 - transcontinental robot-assisted remote telesurgery, 487
- Heller myotomy, 631

failures, 186

inguinal hernia repair, open repair vs., 333

laparoscopic fluorescence diagnosis, peritoneal carcinosis (rat), 252

laparoscopic fluorescence diagnosis of peritoneal carcinosis (rat), 252

Nissen fundoplication, division of short gastric vessels, 165

perforated peptic ulcer repair, 313

Editorial, 320

Roux-en-Y gastric bypass for morbid obesity, 640

staging laparoscopy

determining the indication for (*Editorial*), 8

in extrahepatic biliary carcinoma, 392

in peripancreatic and biliary malignancies, 1

Laryngeal nerve, recurrent nerve dissection and recurrent laryngeal nerve injury, 261

Laser therapy, hepatocellular carcinoma, 466

Lean body mass, energy expenditure and caloric balance after burn, 152

Letters, 308, 446, 604

Lipoma, spermatic cord and round ligament, 586

Literature review, quality of complication reporting in surgical literature, 803

Liver

abscess, in chronic granulomatous disease, 383

colorectal metastases. *See* Metastatic disease

metabolism, hepatic stress response, 408

reperfusion injury, ischemic preconditioning vs. intermittent inflow occlusion (mice), 400

Liver failure, in short bowel syndrome, isolated liver transplantation for, 435

Liver resection

colorectal metastases, 759

second resection for recurrent disease, 872

hepatic gastric metastases, 86

hepatic vein resection and reconstruction, 850

predictive value of preoperative galactose elimination capacity, 77

small hepatocellular carcinoma, outcome, 373

ultrasound scissors/blades in, 27

Liver transplantation

for hepatitis B, 611

hepatocellular carcinoma, 5 cm or larger, 533

hepatocellular carcinoma in cirrhosis, intraoperative sonography vs. helical computed tomography, 528

in infants with liver failure secondary to short bowel syndrome, 435

living-related, small bile duct reconstruction of caudate lobe, 174

pediatric, graft loss, 125

- portal vein thrombosis in, thrombectomy for, 292
- salvage, in small hepatocellular carcinoma, 373
- Lung cancer, non-small cell
 - micrometastases in pN0 lymph nodes, 133
 - prognostic significance of cyclooxygenase-2 mRNA expression, 440
- Lung injury
 - acute, antiinflammatory effects of inosine (mice), 568
 - neutrophil-mediated, attenuation via modulation of PMN apoptosis (rat), 285
- Lymphadenectomy, extent of, prognostic evaluation of stage B colon cancer, 458
- Lymph node(s)
 - dissection, regional lymph node melanoma metastasis, 879
 - micrometastases in pN0 lymph nodes in completely resected non-small cell lung cancer, 133

M

- Macrophage(s), female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
- Mammography
 - nonpalpable breast cancer, correlation with pathologic characteristics, 246
 - stereotactic core biopsy of mammographic abnormalities (*letter*), 605

- MDM2, prognostic relevance in resected ductal pancreatic cancer, 51
- Megacolon, multiple endocrine neoplasia type 2, 648
- Melanoma
 - regional lymph node metastasis, survival, 879
 - sentinel lymph node, frozen-section analysis, 92
- Mesh repair, groin hernia, 322
- Metaplasia, esophageal columnar metaplasia after esophagectomy, 338
- Metastatic disease
 - hepatic colorectal metastases resection, 759
 - FDG-PET in (*letter*), 308
 - second resection for recurrent disease, 872
 - hepatic gastric metastases, liver resection, 86
 - induction of tumor antigen-specific immune responses via tumor RNA-transfected dendritic cells, 540
 - laparoscopic fluorescence diagnosis of peritoneal micrometastases (rat), 252
 - melanoma, frozen-section analysis of sentinel lymph node, 92
 - micrometastases in pN0 lymph nodes in completely resected non-small cell lung cancer, 133
 - regional lymph node melanoma metastasis, survival, 879
- Microvessel density, in gastric cancer, 512
- Microwave coagulation therapy, hepatocellular carcinoma, 466
- Mitotic index, survival in node-negative breast cancer, 10
- Mitral insufficiency, ventricular reconstruction and, 828
- Monocyte(s), preoperative IL-12 production, postoperative sepsis and, 560
- Moore, Francis D. (*In Memoriam*), 600
- Morbidity and mortality
 - abdominal aortic aneurysm, endovascular repair, 833
 - acute pancreatitis, caspase-1/interleukin-1 β -converting enzyme inhibitor in (rat), 68
 - advanced tests in emergent abdominal operations, 681
 - donor site morbidity following omental harvest for extra-peritoneal reconstruction, 782

- energy expenditure and caloric balance after burn, 152
- fulminant *Clostridium difficile* colitis, 363
- hepatic vein resection and reconstruction, 850
- hospital volume and abdominal aortic aneurysm repair death rates, 579
- ileoanal pouch-related septic complications in ulcerative colitis and familial adenomatous polyposis, 207
- inguinal hernia repair, laparoscopic vs. open repair, 333
- laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
- liver resection, predictive value of preoperative galactose elimination capacity, 77
- liver transplantation in infants with liver failure secondary to short bowel syndrome, 435
- penetrating colon injuries, 775
- peptic ulcer perforation, open vs. laparoscopic repair, 313
- postoperative death rate at an academic medical center, 690
- quality of complication reporting in surgical literature, 803
- Motility abnormalities
 - esophageal, in epiphrenic diverticulum, 346
 - gastric phase 3 motility after pylorus-preserving pancreaticoduodenectomy, 417
- Multiple endocrine neoplasia type 2
 - gastrointestinal manifestations, 648
 - pheochromocytoma, laparoscopic adrenalectomy, 713
- Myotomy
 - esophageal, in epiphrenic diverticulum, 346
 - Heller myotomy, *See* Heller myotomy

N

- Neuroblastoma, gastrin-releasing peptide in, 621
- Nissen fundoplication, laparoscopic, division of short gastric vessels, 165, 171
- Nutrition, energy expenditure and caloric balance after burn, 152

O

- Obesity
 - gallstones, 842
 - morbid, laparoscopic Roux-en-Y gastric bypass for, 640
- Omentum, for extra-peritoneal reconstruction, 782
- Outcome
 - abdominal aortic aneurysm, endovascular repair, 833
 - blunt cerebrovascular injuries, follow-up arteriography and, 699
 - breast cancer, eukaryotic initiation factor 4E protein elevation, 732
 - circumferential resection margin status in rectal cancer, 449
 - division of short gastric vessels at laparoscopic Nissen fundoplication, 165
 - epiphrenic diverticulum, 346
 - groin hernia repair with synthetic mesh, 322
 - hepatic colorectal metastases resection, 759
 - limited resection of single/double adenoma in tertiary hyperparathyroidism, 673
 - liver transplantation for hepatitis B, 611
 - minimally invasive Heller myotomy, 631
 - minimally invasive parathyroidectomy, 665
 - pancreatic pseudocysts, pancreatic ductal anatomy and, 751
 - postoperative death rate at an academic medical center, 690
 - postoperative sepsis, predictive value of preoperative monocyte IL-12 production

prognostic significance of positive microscopic resection margins in adult soft tissue sarcomas, 424
 small hepatocellular carcinoma resection, 373
 traumatic rupture of thoracic aorta, delayed repair, 796

P

p53
p53 genotype and response to preoperative radiotherapy in rectal cancer, 493
 prognostic relevance in resected ductal pancreatic cancer, 51
 Pain
 abdominal, multiple endocrine neoplasia type 2, 648
 inguinodynia
 lipomas of cord and round ligament, 586
 peritoneography in, 140
 persistent
 after inguinal hernia repair with synthetic mesh, 322 after inguinal herniorrhaphy (*letter*), 311
 Pancreas, ductal anatomy, correlation with outcome in pseudocysts, 751 Pancreas transplantation, portal venous vs. systemic venous drainage (*letter*), 605
 Pancreatic cancer
 human macrophage metalloelastase in, 519 prognostic relevance of *p16^{INK4a}* gene in resected ductal tumors, 51
 staging laparoscopy in peripancreatic and biliary malignancies, 1
 Pancreaticoduodenectomy
 pylorus-preserving
 delayed gastric emptying after, 240
 gastric phase 3 motility, 417
 quality of life after (*letter*), 310
 Pancreatitis
 acute, caspase-1/interleukin-1 β -converting enzyme inhibitor in (rat), 68
 acute necrotizing, connective tissue growth factor in, 60
 residual, delayed gastric emptying after pylorus-preserving pancreaticoduodenectomy with pancreaticogastrostomy, 240
 Paralytic ileus, pathogenesis (rat), 31
 Parathyroidectomy
 minimally invasive, 665
 total, with autotransplantation, persistent/recurrent hyperparathyroidism after, 99
 Parathyroid hormone, serum, in persistent/recurrent hyperparathyroidism, 99
 Pediatric population
 chronic granulomatous disease, hepatic abscess in, 383
 liver failure secondary to short bowel syndrome, isolated liver transplantation for, 435
 liver transplantation, graft loss, 125
 neuroblastoma, gastrin-releasing peptide in, 621
 Peptic ulcer, perforated, laparoscopic repair, 313
Editorial, 320
 Peritoneal washes, carcinoembryonic antigen mRNA in, in gastric cancer, 499
 Peritoneography, in inguinodynia, 140
 Peritoneum, carcinosis, laparoscopic fluorescence diagnosis (rat), 252
 Pheochromocytoma, familial, laparoscopic adrenalectomy, 713
 31-Phosphorus magnetic resonance spectroscopy, metabolic changes during hepatic stress response, 408 *p16^{INK4a}*,

prognostic relevance in resected ductal pancreatic cancer, 51
 Plasma platelet activating factor acetylhydrolase gene, missense mutation, abdominal aortic aneurysm risk, 297
 Polymorphonuclear neutrophil(s)
 chemoattractant receptor expression and neutrophil chemotaxis, 550
 lung injury, modulation of pulmonary PMN apoptosis and (rat), 285
 Polytetrafluoroethylene, expanded, repair of full-thickness alimentary tract wall defects (dog), 708
 Portal vein thrombosis, in liver transplantation, thrombendvenectomy for, 292
p53 protein, micrometastases in pN0 lymph nodes in completely resected non-small cell lung cancer, 133
 Preoperative testing, advanced tests in emergent abdominal operations, 681
 Presidential address, southern solution to our current malaise, 607
 Pseudocapsule, in hepatic gastric metastases, 86 Pseudocysts, pancreatic, surgery vs. percutaneous drainage, 751
 Psychological issues, quality of life after surgical repair of laparoscopic cholecystectomy bile duct injury, 888

Q

Quality control, recurrent nerve dissection and recurrent laryngeal nerve injury, 261
 Quality issues, quality of complication reporting in surgical literature, 803
 Quality of life
 after pancreaticoduodenectomy (*letter*), 310
 after surgical repair of laparoscopic cholecystectomy bile duct injury, 888

R

Radiofrequency ablation, hepatocellular carcinoma, 466
 Radiotherapy
 preoperative, in rectal cancer, *p53* genotype and response to, 493
 transarterial, hepatocellular carcinoma, 466
Rb, prognostic relevance in resected ductal pancreatic cancer, 51
 Reconstructive surgery, extra-peritoneal reconstruction with omentum, 782
 Rectal cancer
 circumferential resection margin status and outcome, 449 effect of the surgeon and the pathologist on patient survival after resection (*Editorial*), 464
 endoscopic transanal resection, 355
p53 genotype and response to preoperative short-term radiotherapy, 493
 Rectum, neoplasia, endoscopic transanal resection, 355
 Recurrent nerve, recurrent nerve dissection and recurrent laryngeal nerve injury, 261
 Reverse transcriptase-polymerase chain reaction, colorectal circulating tumor cell clearance, 226
 Reverse transcription-polymerase chain reaction, carcinoembryonic antigen mRNA in peritoneal washes from gastric cancer patients, 499 Rhoads, Jonathan (*In Memoriam*), 740
 Robotics
 applications in general surgery (*letter*), 446

transcontinental robot-assisted remote telesurgery, 487
 Round ligament, lipoma, 586

S

- Sarcoma, positive microscopic resection margins and survival in adult soft tissue sarcomas, 424
- Sentinel lymph node, frozen-section analysis, in primary cutaneous melanoma, 92 Seprafilm. *See* Hyaluronic acid-carboxymethylcellulose membrane
- Sepsis
 chemoattractant receptor expression and neutrophil chemotaxis, 550
 female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
 ileoanal pouch-related septic complications in ulcerative colitis and familial adenomatous polyposis, 207
 postoperative, outcome, predictive value of preoperative monocyte IL-12 production
- Sex hormones, female, immunoprotective role in trauma-hemorrhage (mice), 105
- Short bowel syndrome, liver failure, isolated liver transplantation for, 435
- Skin substitutes
 cultured composite keratinocyte grafts, interleukin-1 α and IL-6 enhanced antibacterial properties, 113
 cultured skin substitutes and requirement for donor skin harvesting for full-thickness burns, 269
- Soft tissue sarcoma, positive microscopic resection margins and survival in adult, 424
- Somatostatin subtype receptor 5, glucose homeostasis in sulfonyleurea receptor/somatostatin subtype receptor 5 double knockout mice, 767
- Spermatic cord, lipoma, 586
- S-phase fraction, survival in node-negative breast cancer, 10
- Staging
 laparoscopic fluorescence diagnosis of peritoneal carcinosis (rat), 252
 staging laparoscopy
 determining the indication for (*Editorial*), 8
 in extrahepatic biliary carcinoma, 392
 in peripancreatic and biliary malignancies, 1
- Stress, hepatic stress response, metabolic changes, 408
- Stroke, blunt cerebrovascular injury and, 699
- Sulfonyleurea receptor, glucose homeostasis in sulfonyleurea receptor/somatostatin subtype receptor 5 double knockout mice, 767
- Surgeon performance, recurrent nerve dissection and recurrent laryngeal nerve injury, 261
- Surgery/surgical technique
 autologous vs. allogeneic transfusion in aortic surgery, 145
 delayed gastric emptying after pylorus-preserving pancreaticoduodenectomy with pancreaticogastrostomy, 240
 division of short gastric vessels at laparoscopic Nissen fundoplication, 165
 for epiphrenic diverticulum, 346
 endoscopic transanal resection, 355
 extra-peritoneal reconstruction with omentum, 782
 groin hernia repair with synthetic mesh, 322
 hepatic colorectal metastases resection, 759
 hepatic vein resection and reconstruction, 850
 inguinal hernia repair, laparoscopic vs. open repair, 333
 laparoscopic adrenalectomy for familial pheochromocytoma, 713
 laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
 limited resection of single/double adenoma in tertiary hyperparathyroidism, 673
 minimally invasive Heller myotomy, 631
 minimally invasive parathyroidectomy, 665
 multivisceral resection for locally advanced colorectal cancer, 217
 peptic ulcer perforation, open vs. laparoscopic repair, 313
 recurrent nerve dissection and recurrent laryngeal nerve injury, 261
 robotic applications (*letter*), 446
 skin-sparing mastectomy for invasive breast cancer, local recurrence after, 814
 small bile duct reconstruction of caudate lobe in living-related liver transplantation, 174
 transcontinental robot-assisted remote telesurgery, 487
 traumatic rupture of thoracic aorta, immediate or delayed repair, 796
 ultrasound scissors/blades in liver resection, 27
 ventricular reconstruction, left ventricular function and mitral insufficiency, 828
- Surgical margins
 circumferential resection margin status variability in rectal cancer, 449
 positive microscopic resection margins and survival in adult soft tissue sarcomas, 424
- Surgical "placebo" controls, 303
- Survival
 breast cancer, node-negative, 10
 cyclooxygenase-2 mRNA expression in non-small cell lung cancer, 440
 effect of the surgeon and the pathologist on patient survival after resection of colon and rectal cancer (*Editorial*), 464
 gastric cancer
 association of color Doppler vascularity index and microvessel density, 512
 carcinoembryonic antigen mRNA in peritoneal washes, 499
 hepatic colorectal metastases resection, 759
 recurrent disease, 872
 hepatic gastric metastases, liver resection, 86
 hepatic vein resection and reconstruction, 850
 hepatocellular carcinoma, small, preoperative predictors, 722
 hepatocellular carcinoma 5 cm or larger, liver transplantation with multimodal adjuvant therapy, 533
 liver resection, predictive value of preoperative galactose elimination capacity, 77
 liver transplantation for hepatitis B, 611
 liver transplantation in infants with liver failure secondary to short bowel syndrome, 435
 multivisceral resection for locally advanced colorectal cancer, 217
 non-small cell lung cancer, detection of micrometastases in pN0 lymph nodes, 133
 pancreatic cancer, human macrophage metalloelastase expression and, 519
 positive microscopic resection margins and survival in adult soft tissue sarcomas, 424
 rectal cancer

circumferential resection margin status, 449
p53 genotype and, 493
regional lymph node melanoma metastasis, 879
small hepatocellular carcinoma resection, 373
stage B colon cancer, 458

T

Tamoxifen, interferon- γ modulation of tamoxifen/Fas-induced apoptosis of human cholangiocarcinoma (mice), 863
Technetium-99m anti-CD 15 monoclonal antibody (LeuTech) imaging, in suspected appendicitis, 232
Technetium-99m sestamibi scan
 in persistent/recurrent hyperparathyroidism, 99
 in primary hyperparathyroidism, 665
Thoracoscopy, Heller myotomy, 631
Thrombendvenectomy, for portal vein thrombosis in liver transplantation, 292
Thyroid carcinoma, medullary, multiple endocrine neoplasia type 2, 648
Thyroid nodules, fine-needle aspiration, 656
Thyroid surgery, recurrent nerve dissection and recurrent laryngeal nerve injury, 261
Toupet, André, 591
Tracheostomy, early, in high-risk trauma patient with halo fixation, 280
Transfusion therapy
 aspirin and bleeding after coronary artery bypass grafting, 820
 autologous vs. allogeneic transfusion in aortic surgery, 145

Trauma

blunt cerebrovascular injuries, follow-up arteriography and outcome, 699
female sex hormones and macrophage function after trauma-hemorrhage (mice), 105
halo fixation, airway emergencies in, 280
penetrating colon wounds, clinical pathway for, 775
traumatic rupture of thoracic aorta, delayed repair, 796
Tumor grade, survival in node-negative breast cancer, 10
Tumor size, survival in node-negative breast cancer, 10

U

Ulcerative colitis, ileoanal pouch-related septic complications, 207
 Ulcers/ulceration, peptic ulcer perforation, open vs. laparoscopic repair, 313
UltraCision (ultrasound scissors), in liver resection, 27
Ultrasonography
 intraoperative, hepatocellular carcinoma in cirrhosis, 528
 staging ultrasonography in peripancreatic and biliary malignancies, 1
 ultrasound scissors/blades in liver resection, 27

V

Vascular occlusion, intermittent clamping, protection against hepatic reperfusion injury (mice), 400

W

Weight loss, laparoscopic Roux-en-Y gastric bypass for morbid obesity, 640
Wound care, extra-peritoneal reconstruction with omentum, 782
